

AMITY SCHOOL OF ENGINEERING & TECHNOLOGY

NTCC DIARY

Name of Student: Abhishek Pal

Enrollment No: A076119823010

Program: B.Tech (AI)

Semester: 7th

NTCC Project Title: Automated IT Support Ticket Classification and Routing System

Faculty Guide: Dr. Vineet Singh, Assistant Professor

Commencement Date: 04/05/2026

End Date: 05/07/2026

<u>S.NO</u>	<u>DATE</u>	<u>QUESTION ASKED</u>	<u>REMARKS</u>
1.	04th May 2026	Could not finalize the project topic and scope of NLP work.	Guide helped me choose: Automated IT Ticket Classification using NLP and DistilBERT.
2.	11th May 2026	How to collect and structure an IT support ticket dataset for classification?	Guide assisted with dataset sources and EDA approach.
3.	18th May 2026	How to build a text preprocessing pipeline suitable for IT ticket text?	Guide assisted with spaCy/NLTK tools and preprocessing steps.
4.	25th May 2026	How to perform TF-IDF feature extraction and train baseline models?	Guide explained TF-IDF, Logistic Regression, and Naive Bayes baselines.
5.	02nd Jun 2026	How to train and evaluate a DistilBERT Transformer model for classification?	Guide suggested Hugging Face Transformers library and fine-tuning approach.
6.	08th Jun 2026	How to implement Named Entity Recognition for IT entities?	Guide explained spaCy EntityRuler and suggested configurable patterns.
7.	15th Jun 2026	How to design a REST API for the ticket classification system?	Guide suggested FastAPI with Pydantic schemas and SQLite persistence.
8.	22nd Jun 2026	Report writing and structuring the NTCC final project report.	Guide suggested corrections to methodology and results sections.
9.	05th Jul 2026	Correction of final report and submission preparation.	Full report was reviewed and approved by the guide.
